Dear Friends of Kids Escaping Drugs,

As concerns over the Coronavirus (COVID-19) continue to increase, we want to assure you that the health and well-being of our adolescents and employees on the Kids Escaping Drugs Renaissance Campus is our top priority. We are acting with an abundance of caution and are remaining vigilant to keep everyone safe. As this situation continues to evolve, we are in contact with the New York State Office of Addiction Services and Supports (NYS OASAS) and have received the most up-to-date and relevant guidance available. All of the necessary precautionary steps have been taken to provide the safest environment based on the [guidelines from the CDC](#). In order to reduce risk and exposure, our staff and residents have been trained on this information and we have put enhanced cleaning measures and updated protocols in place.

We appreciate the trust that you place in Kids Escaping Drugs and we know that our Western New York families depend on us. We will continue to monitor the situation closely, and will amend our policies and procedures as necessary to keep everyone on the Kids Escaping Drug Renaissance Campus out of harm's way. We appreciate your support and together we can build a healthy Western New York Community. Right here, right now.

Sincerely

Robin A. Clouden
Executive Director
